

SipSip - User Stories

Authors: Jayden Lewis, Aidan Repchik, Uzma Shaikh

Version: 1.0

Date: 28/09/2025

1

Jacque Laurent - CRUD Functionality

As a user, I want to create, view, edit, and delete plant profiles, so I can keep my condo plant collection organized without hassle.

2

Jacque Laurent - Photo Recognition & Automation

As a user, I want to snap a picture of a plant and have SipSip identify it and generate a care schedule, so I don't waste time researching.

3

Jacque Laurent - Plant Health Dashboard

As a user, I want a simple dashboard that shows me which plants need attention right now, so I can quickly take action after work.

4

Jacque Laurent - Reliable Scheduling

As a user, I want a reliable app that reminds me to water or feed plants without crashing, so I can trust it to reduce stress in my busy lifestyle.

5

Cherry Marigold - Indoor / Outdoor Categorization

As a user, I want to separate my indoor plants from my outdoor garden, so SipSip gives me tailored seasonal care tips.

6

Cherry Marigold - Advanced Care Guidance

As a user, I want bite-sized lessons on advanced topics like propagation or pest control, so I can expand my skills gradually.

7

Cherry Marigold - Routine-Based Reminders

As a user, I want reminders that align with my evening and weekend routines, so plant care feels like a calming ritual rather than a chore.

8

Cherry Marigold - Sustainable Practices

As a user, I want SipSip to suggest eco-friendly plant care options (like rainwater use or natural fertilizers), so I can incorporate sustainability into my garden.

9

Saffron Medley - Shared Care with Family

As a user, I want to assign garden care tasks to my daughter, so we can manage our plants together as a bonding activity.

10

Saffron Medley - Office Plant Check-ins

As a user, I want a way to log who last watered the office plants, so I can ensure they stay alive even when I'm not at work.

11

Saffron Medley - Smart Reminders & Customization

As a user, I want grouped reminders that don't overlap with meetings and the ability to customize tones, so I stay aware without being distracted.

12

Saffron Medley - Growth Tracking & Journaling

As a user, I want to track plant growth visually and log photos/notes, so I can share progress with my daughter or yoga group.

13

Elijah Cruz - Snooze Notifications

As a user, I want to snooze plant care notifications, so I can still get reminders later when I'm done with classes or work shifts.

14

Elijah Cruz - Milestone Sharing

As a user, I want to celebrate milestones like "100 days thriving!" by sharing them with friends, so I feel encouraged to keep going.

15

Elijah Cruz - Quick Tips for Beginners

As a user, I want simple, beginner-friendly tips attached to each plant task, so I can learn plant care basics without being overwhelmed.

16

Elijah Cruz - Offline Mode

As a user, I want to log plant care and check instructions offline, so I can use SipSip even on the subway or in a dorm with poor Wi-Fi.
